

# How to navigate Library Catalog on mobile device

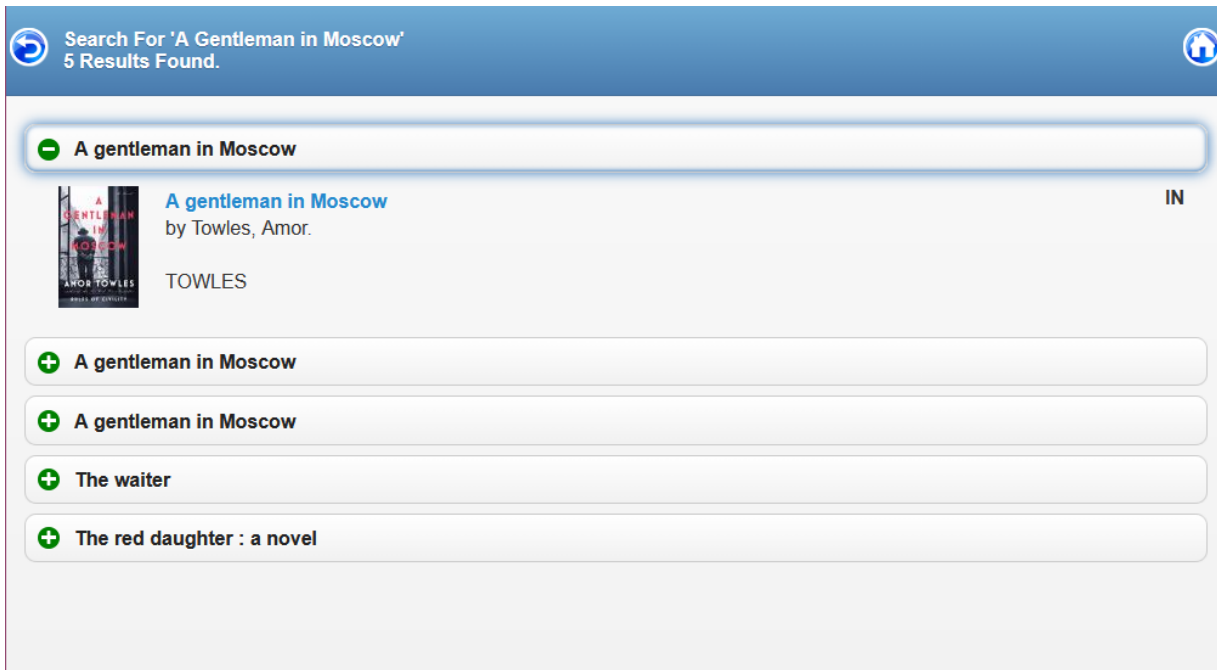

Click on "mobile" icon in upper right-hand corner to switch to mobile view (formatted for mobile devices)

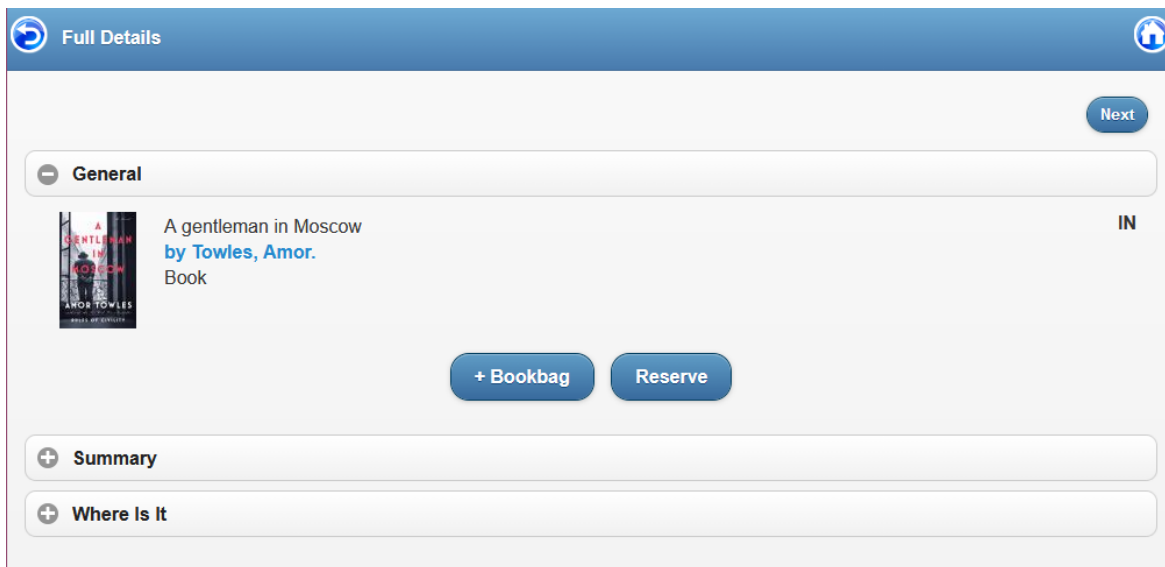

Once in mobile view type in your search:

On the search results page click the plus next to the item you wish to look at. You can then see the status on the right-hand side of page. My item is in. I will then click on that item to reserve or place in my book bag (to then be checked out at the library).

At this window you can click the plus next to “Where is it” to see which Apache County Libraries have the book and whether it is in or checked out already. You can then add it to your bookbag or reserve it.

You can scroll through your search results by using the “next” button in the upper right-hand area of window, without having to keep returning to your search results list.

To return to the search page – click on the little “home” icon in the upper right-hand corner of the window.

At the home screen, should you desire to return to the full browser version (not formatted for mobile devices) you can click on the “Full OPAC” link in the bottom right-hand corner of screen.
